**MANUFACTURER OF POS ARTICLES**

MANUFACTURER  
FROM POLAND  
OF THE  
PLASTICS  
INDUSTRY

DEAR CUSTOMERS!

WE ARE PLEASED TO PRESENT  
YOU OUR PRODUCT CATALOGUE.

**KON-PLAST GROUP** is a manufacturing and servicing company offering plastic products. Our market experience is **23 years**. We have been now offering **POS** products for a couple of years as the market leader. Customers can expect from us quality in every detail, short production periods and competitive prices. The development of our offer and investment in modern machinery and new molds are our priorities.

We maintain our own and exclusive design office allowing us to develop your product from the design up to manufacturing phase. Our machinery stock includes lines for profiles extrusion and injection molders of closing force ranging from **20 to 4000 tonnes**.

A significant part of our production output is equipment for store interiors: price profiles, shopping baskets, shelf dividers and many other products allowing you to display your merchandise in an appealing manner. Our production facility is located at the logistic center of Poland, near the **A2 highway**.

I invite you to browse our product offer and contact us for details on cooperation.

Yours truly,  
**Henryk Kamiński**  
Kon-Plast Group Director

# ABOUT US

**KON-PLAST Group** KON-PLAST Group is a manufacturing and servicing company offering plastic products, **founded in year 1991**. Major part of our production is equipment for store interiors: price strips, advertisement strips, price tag plates, shopping baskets, poster frames of various dimensions, shelf divider for merchandise and other accessories.

The twenty-year experience combined with a modern, large facility and high production output allowed us to gain a number of satisfied customers. Utmost care for labor conditions, quality and timely performance of our orders has granted our company the following awards:

- **HIT 2007** for price tag profiles for trade;
- **HIT 2008** for innovative approach to plastics recycling;
- **KRYSZTAŁOWY HIT 2009** for an increase in innovativeness and technological levels;
- **RUBINOWY HIT 2010** for creating a dynamically functioning company implementing high-end technologies due to reasonable utilization of the EU grants;

- **RUBINOWY HIT 2011 Z GWIAZDĄ** for maintaining plastic products market leadership.

## DESIGN OFFICE AND TOOL ROOM

We perform orders beginning from the concept, visualization stage up to execution and manufacturing.

We operate our exclusive design office running on hi-end software (CAD/CAM - VISI Series) and possess our own tool room. We design injection moulds, heads, calibrators.

## MACHINERY STOCK

Our company incorporates injectors and extruder department:

- Our injectors department is equipped with injectors of closing force **20 - 4000 t** and injection basis weight up to **50 kg**.
- The profiles department is equipped with production lines of **120 kg/h** output.

The co-extruders feature all lines allowing to produce profiles of various hardness and color.

## Mission

It is particularly important for us to meet our clients' expectations, be up to date with the European market and be able to offer the most modern technologies, both for production as well as quality management.

## Investments

Aiming at fulfilling our clients' expectations, we constantly develop our assortment. Consequently investing in our machinery stock, we are able to produce vast numbers of products of various surfaces and colors.

## Quality

Our top priority is quality. Therefore we equipped our laboratory with a number of reliable and multi-functional devices with which we control the quality of raw materials and end products on a current basis.
